## Course Syllabus

### Semester I

#### 1.1 Subject I

<b>Course Title</b>	<b>PERSPECTIVES AND SCIENCE OF PSYCHOLOGY</b>
<b>Course Credits</b>	2 credits
<b>Course Outcomes</b>	After going through the course, learners will be able to
	1. Recognize psychology as a science
	2. Explain perspectives in psychological approaches.
	3. Learn relevant applications of psychology in everyday life.
	4. Get acquainted with the scope and the field of Psychology
<b>Module 1(Credit 1)- Perspectives in Psychology</b>	
<b>Learning Outcomes</b>	After learning the module, learners will be able to
	1. Recognize the historical roots of psychology
	2. Describe and define key concepts in psychology
<b>Content Outline</b>	1.1 History and definition 1.2 Classic approaches (with emphasis on Freud's theory of personality) & Contemporary approaches to understanding humans, 1.3 Indian perspectives in Psychology, Areas of specialization and Professionals in the field 1.4 Application: Understanding daily behaviours from different perspectives using a psychological lens
<b>Module 2(Credit 1)- The Science of Psychology</b>	
<b>Learning Outcomes</b>	After learning the module, learners will be able to
	1. Identify various research methods used in psychology
	2. Design a study with operationally defined variables
<b>Content Outline</b>	2.1 Research methods (Quantitative & Qualitative): Non-experimental methods, the experimental method and designs  2.2 Ethics in research  2.3 Statistics in psychological research  2.4 Application: Design a study with operationally defined variables

## Assignments/Activities towards Comprehensive Continuous Evaluation (CCE)

1. Regular attendance and active participation in class discussions and activities.
2. Prepare Crosswords/quizzes.
3. Presentations based on what was learnt by the student from online reference or field visits or experiments, Descriptive report of the field visit.
4. Posters/charts along with their explanation,
5. Prepare Mind Maps
6. Completion of assigned readings and independent study of course materials.
7. Group projects or presentations to encourage collaboration and application of knowledge.

#### 1.4 Generic/ Open Elective Course: OEC-I

<b>Course Title</b>	<b>PSYCHOLOGY OF ADJUSTMENT AND COPING</b>
<b>Course Credits</b>	04
<b>Course Outcomes</b>	After going through the course, learners will be able to
	1. Discuss the concept of adjustment and apply it for improving academic performance
	2. Monitor stress and apply tactics to overcome it.
	3. Monitor Self-control and use various strategies in coping process
	4. Recognize how impressions are formed
	5. Apply various compliance tactics
<b>Module 1(Credit 1): Introduction to Adjustment and Happiness</b>	
<b>Learning Outcomes</b>	After learning the module, learners will be able to
	1. Explain the concept of adjustment
	2. Discuss the various determinants of happiness
	3. Apply effective study habits
	4. Discuss various mnemonics
<b>Content Outline</b>	1.1 Psychology of Adjustment 1.2 Scientific Approach to behavior 1.3 The Root of Happiness 1.4 Application to Academics
<b>Module 2(Credit 1): Stress: Nature and Management</b>	
<b>Learning Outcomes</b>	After learning the module, learners will be able to
	1. Describe nature of stress
	2. Differentiate between primary and secondary appraisal of stress
	3. Summarize the effects of stress
<b>Content Outline</b>	2.1 Nature and types of Stress 2.2 Response to stress 2.3 Psychological and Physical effects of stress 2.4 Monitor your stress
<b>Module 3(Credit 1): Common Coping Patterns</b>	
<b>Learning Outcomes</b>	After learning the module, learners will be able to
	1. Describe variety of Coping strategies that people use

	2. Discuss distinctive styles of coping
<b>Content Outline</b>	3.1 Appraisal Focused Coping 3.2 Problem Focused Coping 3.3 Emotion Focused Coping 3.4 Monitor your Self Control
<b>Module 4(Credit 1): Social Thinking and Social Perception</b>	
<b>Learning Outcomes</b>	After learning the module, learners will be able to
	1. Describe sources of information people use to form impressions
	2. Explain how old fashioned and modern discrimination differs
	3. Describe several compliance strategies
<b>Content Outline</b>	4.1 Impression Formation 4.2 Prejudice- Old vs modern 4.3 Power of Persuasion 4.4 Social Pressure & Compliance Strategies

### Assignments/Activities towards Comprehensive Continuous Evaluation (CCE)

1. Presentations
2. MCQs
3. Assignments based on application of theoretical concepts.

## 2.5 – SEC

<b>Course Title</b>	Stress management
<b>Course Credits</b>	2
<b>Course Outcomes</b>	After going through the course, learners will be able to
	1. Understand the physiological and psychological process of stress
	2. Understand the relationship between stress and disease
	3. Different types of interventions needed to manage stress
<b>Module 1(Credit 1) Nature and perception of stress</b>	
<b>Learning Outcomes</b>	After learning the module, learners will be able to
	1. The mind body relationship in stress
	2. Types of stress management exercises
<b>Content Outline</b>	1.1 Psychophysiology of Stress 1.2 Stress and disease 1.3 Interventions 1.4 Interpersonal, Intrapersonal, Perceptions
<b>Module 2(Credit 1) Stress Management Strategies</b>	
<b>Learning Outcomes</b>	After learning the module, learners will be able to
	1. Strategies to manage stress
	2. Context specific stress management techniques
<b>Content Outline</b>	1.1 General Applications a. Strategies to manage physical stress b. Strategies to decrease stressful behaviours 1.2 Specific Applications a. College life b. Work life c. Family life

### Assignments/Activities towards Comprehensive Continuous Evaluation (CCE)

- Exercises mentioned in the prescribed text
- Self-monitoring methods
- Assessment of coping methods
