Minor Stream (RM)

Course Title	Research Methodology
Course Credits	4
Course Outcomes	After going through the course, learners will be able to 1. understand research as a way of new thinking. 2. get acquainted to the preparation of historical research design. 3. understand meticulous and scientific methods of writing history with proper sources. 4. learn to use of various tools and its proper use in writing history. 5. be familiar with the methodology for historical research.
Module 1 (Credit 1)	Research: A Way of Thinking:
Learning Outcomes	After learning the module, learners will be able to 1. define the Social Research and understand the objectives 2. understand the various types of research and ethics
Content Outline	a) Meaning, definition, objectives b) Types of research: empirical, historical, descriptive, analytical, comparative c) Ethics: honesty, intellectual ownership, plagiarism
Module 2 (Credit 1)	Preparation of Research Design:
Learning Outcomes	After learning the module, learners will be able to 1. understand the significant aspects of making a research proposal. 2. understand the importance of making a research proposal.

Content Outline	a) Selection of subject, formation of objectives, formation of hypothesis b) Review of literature: nature, functions, developing theoretical frame work c) Scheme of chapters, importance and limitations of the study, bibliography
Module 3 (Credit 1) Data Collection and Documentation:	
Learning Outcomes	After learning the module, learners will be able to
	1. learn the various methods of data collection
	2. adopt the skill of research work
Content Outline	a) Collection of historical data, oral history, testing of sources, forgery in historical sources b) Skills of documentation: technique of notes-making, self-regulated card system c) Tools of presentation of data: use of charts, tables, statistics, maps, glossary, abbreviation, appendices and index
Module 4 (Credit 1) Art of writing History:	
Learning Outcomes	After learning the module, learners will be able to
	1. develop the skill of writing in research article/chapters
	2. understand the constructive and appropriate research work
Content Outline	a) Citation: use of foot-notes and bibliography logical arrangement of chapters, appropriate title b) Proper chronology, main ingredients and sequence of research findings. c) Objectivity, interpretation and valid conclusion.

Assignments/Activities towards Comprehensive Continuous Evaluation (CCE)

1. To make a research proposal on any topic.
2. Study and presentation on any one concept as assignment.
3. Preparing a PPT on any one theme of your choice.
4. Visit to archives or various types of libraries and write report.

Major (Elective)

Course Title	History of Science and Technology in India
Course Credits	4
Course Outcomes	After going through the course, learners will be able to 1. learn sources of history of Science, Technology and Medicine in Early India. 2. understand the development of Science and Technology in Medieval India 3. comprehend the different scientific surveys and debates in British India. 4. analyse the developments of Science, Technology and Medicine in Independent India. 5. get acquainted the nuclear program, space technology in Independent India.
Module 1 (Credit 1) Science and Technology in Early India:	
Learning Outcomes	After learning the module, learners will be able to 1. learn sources of History of Science and Technology 2. understand the scientific developments and technology used in ancient India.
Content Outline	a) Sources of History of Science and Technology b) Technology in Pre and Proto Historical period c) Developments in Science and Technology in ancient period- Astronomy, Mathematics, Metallurgy and Medicine

Module 2 (Credit 1) Scientific Thoughts in Medieval India:	
Learning Outcomes	After learning the module, learners will be able to
	1. understand the scientific and technological developments in Medieval period.
	2. comprehend the Arab astronomy and astronomical work of Sawai Jai Singh.
Content Outline	<p>a) Science and Technological Developments - Agriculture, textile, Military technology and Ship building.</p> <p>b) Astronomy in the Arab world and its impact on India with special reference to Sawai Jai Singh.</p> <p>c) Various theories of medicine- Unani, Siddha, Tantric Aids and social beliefs of diseases</p>
Module 3 (Credit 1) Growth of Science and Technology in Modern India	
Learning Outcomes	After learning the module, learners will be able to
	1. understand the introduction of western science in colonial India and Indian's responses.
	2. study the Scientific surveys, vaccination process under colonial rule.
Content Outline	<p>a) British polices on introduction of Western Science.</p> <p>b) Establishment of Scientific Surveys and Commissions: Survey of India, Royal Commissions and their reports</p> <p>c) Epidemics & Endemics -Control Measure and Vaccination</p> <p>d) Western Science and Indian Nationalism, Indian Scientists in British India- P. C. Ray, J. C. Bose, C.V. Raman</p>
Module 4 (Credit 1) STM Policy in Independent Era	
Learning Outcomes	After learning the module, learners will be able to
	1. familiarize the scientific research in agriculture in Independent India.
	2. comprehend the Independent India's policies on Science, Technology and Public Health.

Content Outline	a) Science: Agriculture b) Technology: Nuclear programs, Space Technology, Information Technology c) Public Health - Bhole Committee Report and its Implication
------------------------	---

Assignments/Activities towards Comprehensive Continuous Evaluation (CCE)

1. Written Assignments
2. Projects
3. Presentations
4. Field visit & Report on it.
5. Power Point Presentation on sub topic
