

SNDT Women's University, Mumbai

**Master of Science
(Home- Science - Extension
Communication Management)**

M.Sc. (HS-ECM)

As per NEP-2020

Syllabus

(2023-24)

Programme	Master of Science
Specialization	(Home Science- Extension Communication Management)
Preamble	<p>This programme is aimed at creating development sector workforce who is equipped to manage extension education initiatives, communication strategy designs, urban/rural development and community outreach interventions, gender and development projects and everything to do with improving quality of life of human society.</p> <p>Learners interested in working for civil society organizations, bilateral and multilateral agencies associated with development work locally, regionally and globally in the areas of community development, corporate social responsibility, urban or rural development can benefit from this programme. The programme equips the learners with knowledge and skills in dealing with diverse communities. There is community work for the first year of this programme which helps learner develop self confidence and skills in reaching out to community and designing and implementing training, activities, campaigns and projects for social change.</p>
Programme Objectives	<p>This programme will enable the learner to:</p> <ol style="list-style-type: none"> 1. Gain knowledge in the areas of extension, development, management and media communication. 2. Strengthen the professional competence for work in the areas of development, research, education, extension, and communication. 3. Pursue higher education and research in Home Science Extension, Media Communication, Community Development and Development Studies. 4. Obtain skills in facilitating communities and employability in the areas of urban/rural outreach, community development and social and behaviour change communication.

<p>Programme Specific Outcomes (POs)</p>	<p>After completing this programme, Learner will be able to:</p> <ol style="list-style-type: none"> 1. Become extension and communication professionals working for government and Non- government organizations to attain development goals of the nation. 2. Gain understanding of inter-relationship of diverse disciplinary areas of home science extension, development studies, public administration, training and development, gender, human service management, community health, media and communication. 3. Undertake research and intervention for diverse groups like children, adolescents, girls, women, youth and so on. 4. Equip themselves with information and skills for working with diverse communities including design and development of programmes and activities. 5. Act as a facilitator for the development processes for the social change. 6. Able to establish organizations that work for/with diverse communities.
<p>Eligibility Criteria for the Programme</p>	<p>Any woman student who has graduated with minimum 45% with B.Sc. Home Science with any specialization, B.Sc. Composite Home Science, BA in Home Economics/Home Science, B.Sc. General Home Science, B.Sc. family and community sciences/Human Ecology and Community Sciences, B. Sc. Agriculture/forestry/horticulture/Botany, Bachelor's degree in Social Work, Arts, Management, Mass Communication and Journalism, Mass Media or any allied social science subjects from AICTE/UGC recognized institutions after 10+2 years of education.</p>
<p>Intake (For SNDTWU Departments and Conducted Colleges)</p>	<p>20</p>

M.Sc. (Extension Communication Management)						

1.1 Major (Core)

Course Title	Socio-Economic Environment of India
Course Credits	4
Course Outcome	<p>At the end of the course students shall be able to:</p> <ol style="list-style-type: none"> 1. become aware of the socio-economic structure, organisation and problems of rural, urban and tribal communities 2. Recognise the implications of the socio-economic environment in the process of development 3. Gain exposure to rural, urban and tribal communities and sensitize with the issues and structural challenges. 4. Recognise implication of the changing socio-economic environment of India post-independence. 5. Analyse the know how to measure the poverty through different tools and techniques. 6. Apply critical thinking to inform and communicate professional judgments
Module 1 (Credit 1) - Community Structures and Dynamics	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Differentiate the social structures and characteristics of different types of communities. 2. Recognize how communities are structured across spaces.
Content Outline	<ul style="list-style-type: none"> • Definition, characteristics of a community, community dynamics • Structure and organization of rural, urban and tribal communities. Family, caste, marriage, values, norms, customs, occupation, religion, kinship gender roles, social controls, class, etc. • Liberalization, Privatization, Globalization • Public, Private, Corporate, Business, Civil Society
Module 2 (Credit 1) - Socio-economic changes in post-independence India	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Illustrate historical processes in Indian history.

	<ol style="list-style-type: none"> 2. Recognize role of various government bodies and their effect on society. 3. Categories how events have impacted post-independent India.
Content Outline	<ul style="list-style-type: none"> • Planned Development, Industrialization, White/Green/Blue Revolutions • Role of Planning Commission, Niti Ayog, Indian Constitution • Education and Employment, and their impact on social change • Emergency, Rise and Fall of Political parties, Reform movements
Module 3 (Credit 1) - Issues of rural, urban and tribal areas	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Assess characteristics of different types of communities. 2. Construct critical analysis about issues related to urban, rural and tribal societies.
Content Outline	<ul style="list-style-type: none"> • Rural: Caste traditionalism, unemployment, health, social and economic inequalities, illiteracy, migration, connectivity, etc. • Urban: Poverty, unemployment, overpopulation, housing, slums, pollution etc. • Tribal: Social and economic problems, illiteracy, health, integration with main stream, etc. • Industrialisation and Digitisation of Tier II and Tier III cities, SmartCity concept
Module 4 (Credit 1) - Social Change and Community Development Concepts	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Recognise varied concept in social change and community development. 2. Create their analysis about 3. issues related to day to day life.

Content Outline	<ul style="list-style-type: none"> • Inclusion, Exclusion, Integration, federalism • Fundamentalism, Communalism, Regionalism, Nationalism, Patriotism • Brain Drain
------------------------	---

Assignments/Activities towards Comprehensive Continuous Evaluation (CCE):

1. Survey/Interview (community/campus) on selected themes listed in the syllabus.
2. Presentation on themes like Urbanization, Industrialization & Planned development in India, LPG; White/Green/Blue Revolutions or Planning Commission, Niti Ayog & Indian Constitution.
3. Discussion on Urban issues/problems based on: Field work notes/field diary, observations.
4. Class discussion/debate on rural/tribal/ urban issues, challenges of corruption, cleanliness or even violence against women.
5. Explain with the help of: Thematic/concept maps showing interrelationships/ linkages between various issues.

1.2 Major (Core)

Course Title	Development Planning & Administration
Course Credits	4
Course Outcome	<p>At the end of the course students shall be able to:</p> <ol style="list-style-type: none"> 1. Organize the concept of development administration and engage in current policy practice to advance social and economic well-being. 2. Identify different approaches, models and principles of development administration and apply in working with communities. 3. able to engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities 4. Apply critical thinking to respond to context that shape community practices.
Module 1 (Credit 1) - Concepts	
Learning Outcomes	<p>After learning the module the students will be able to:</p> <ol style="list-style-type: none"> 1. Recognize varied concepts associated with Development. 2. Contrast different processes of development administration
Content Outline	<ul style="list-style-type: none"> • Development: meaning, philosophy, objectives, approaches, Principles, Global/Regional/Local trends in public administration • Extension education: meaning, process and principles of learning in extension • Types of Extension- Agriculture extension, Home Science extension, Dairy extension, etc. • Role of public administration in development- Plans, Projects, Programmes, Policies, Personnel, governance, Difference in Planning, Administration, Management • Role of NAM, SAARC, BRICS, BIMSTEC, Economic Forums
Module 2 (Credit 1) - Development Approaches and Models	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Compare varied approaches to development. 2. Recognise different models of development.
Content Outline	<ul style="list-style-type: none"> • Dominant Paradigm, Alternate paradigm, Gandhian self-reliance • Approaches: Welfare, Equality, Equity, Empowerment, Participatory, • State versus Market, Infrastructure debate, Governance, • Models of Development- Liberal, Socialist, Gandhian, PPP and others
Module 3 (Credit 1) - Development Administration	

Learning Outcomes	After learning the module, the students will be able to: <ol style="list-style-type: none"> 1. Elaborate developments and levels of development administration. 2. Recognise the role of various government bodies in development process.
Content Outline	<ul style="list-style-type: none"> • Edward Weidner and concept of development administration, Historical developments mainly post independent India • Village-Block-District-State-Union level agencies, organisations and institutions • Urban planning and management, Role of Municipalities, Corporations and urban agglomerations • Revenue administration, district administration, local self-government, Three arms of government- legislative, judiciary, • executive, Role of media
Module 4 (Credit 1) - Community Development and Public Administration	
Learning Outcomes	After learning the module, the students will be able to: <ol style="list-style-type: none"> 1. Identify interconnections of communities' development and public administration. 2. Recognize challenges associated with community development.
Content Outline	<ul style="list-style-type: none"> • Community and their role in their own development • Government programmes, policies and efforts in engaging community • Challenges of Community Development: Sustainability-Participation-Resources- • Engagement- Self Reliance

Assignments and Activities towards Comprehensive Continuous Evaluation (CCE):

Module 1: Concepts

Students will research how a local development policy has impacted their community. They can select a nearby neighborhood or village and gather information from local news, community meetings, and interviews with residents and local officials. The project involves reviewing how development policies are applied locally and their effects on the community. Students will use readily available resources like online articles and public records, and present their findings on the effectiveness of these policies.

Module 2: Development Approaches and Models

Students will compare two development models used in their area, such as a market-driven approach and a community-based approach. They can choose examples from local projects or initiatives. The project involves collecting information through local case studies, interviews, and public reports. Students will compare how each model addresses community needs and impacts local development. They can use local library resources or online databases for their research.

Module 3: Development Administration

Students will explore the role of a local government agency in their area. They should choose an agency like a municipal office or a local development authority. The project includes interviewing agency staff, reviewing public records, and observing their activities. Students will summarize how the agency supports community development and its impact on local projects. They can gather information from public documents and local government websites.

Module 4: Community Development and Public Administration

Students will assess a community development project run by a local organization or government. They should choose a project focused on areas like sustainability or community engagement. The project involves looking at project reports, interviewing participants, and observing project activities. Students will evaluate the project's success and suggest improvements based on their findings. They can use project brochures, online resources, and interviews for their research.

1.3 Major (Core)

Course Title	Understanding Communication
Course Credits	4
Course Outcome	At the end of the course students shall be able to: 1. Identify the concept and skills of communication so that they can effectively deliver community development activities. 2. Recognize different approaches, models and principles of communication and apply in working with communities. 3. engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities 4. Critique effectively the role of communication for self and society
Module 1 (Credit 1) - Concepts in Communication	
Learning Outcomes	After learning the module, the students will be able to: 1. Contrast communication as process and product. 2. Recognise stakeholders in communication process
Content Outline	<ul style="list-style-type: none"> • Definitions of Communication • Functions of Communication • Types & Levels of Communication • Elements of Communication • Barriers in Communication. • Scope of communication • Stakeholders in communication • Communication as a process and product • Evolution of communication • Role of technology in communication
Module 2 (Credit 1): Models of Communication	
Learning Outcomes	After learning the module, the students will be able to: 1. Judge how varied models came into being and scholars' backgrounds who provided those models. 2. Contrast how different models have merits and demerits.
Content Outline	<ul style="list-style-type: none"> • Basic Models in Communication: Lasswell's formula, Shanon & Weaver mathematical model, Osgood & Schramm's model, Berlo's SMCR model. • Models of Mass Communication : Defluer, Ball & Rokeach dependency model; Gerbner's general model of mass communication; Comstocks psychological model of TV effect; Schramm's model of mass communication, Westley & MacCleans model of Communication research, Katz & Lazarfeld's 2 step flow of Communication model, Spiral of Silence. • Conceptualizing models based on day to day experiences
Module 3 (Credit 1) - Growth and Development of Communication sciences	

Learning Outcomes	After learning the module, the students will be able to: 1. Illustrate evolution of discipline of communication with time 2. Recognise relationship of communication with culture and society
Content Outline	<ul style="list-style-type: none"> • Communication as transmission • Communication as reception • Communication as culture • Relationship of communication with culture and media • Role of Communication in any society <p style="text-align: center;">Communication as a subject discipline</p>
Module 4 (Credit 1) - Understanding Self and 'other' in Communication	
Learning Outcomes	After learning the module, the students will be able to: 1. Organise understanding about oneself using various tools.
Content Outline	<ul style="list-style-type: none"> • Transactional analysis • Johari Window • SWOT analysis • Maslow's Hierarchy of needs • Content-context of communication: Appearance, audio and emotion in rapport building, Attitude, behavior and values in communication

Assignments/Activities towards Comprehensive Continuous Evaluation (CCE):

Module 1: Concepts in Communication

Students will investigate how communication barriers affect community outreach programs. They should select a local community initiative, such as a health awareness campaign or educational program, and identify challenges in communication within that program. Using interviews with program staff, observations, and review of program materials, students will analyze how barriers like language, technology, or cultural differences impact the effectiveness of communication. They will use readily available resources such as program reports and local news articles for their research.

Module 2: Models of Communication

Students will compare two different communication models used in real-world scenarios. They can choose examples from local media campaigns or community projects. The project involves researching how these models (e.g., Lasswell's formula vs. Shannon & Weaver model) are applied in practice. Students will gather data through online resources, interviews with media professionals, and analysis of campaign materials. They will evaluate the strengths and weaknesses of each model in achieving communication goals.

Module 3: Growth and Development of Communication Sciences

Students will explore the historical evolution of communication practices in their local area. They should identify key changes in communication methods over time, such as the impact of new media technologies on local news dissemination or cultural events. The project involves reviewing local history, interviewing long-term residents or media professionals, and examining archives or historical documents. Students will present their findings on how communication practices have evolved and influenced their community.

Module 4: Understanding Self and 'Other' in Communication

Students will conduct a self-assessment and analyze how their personal

communication style affects interactions with others. They can use tools like the Johari Window or SWOT analysis to reflect on their strengths and areas for improvement. The project includes collecting feedback from peers, conducting self-reflection exercises, and examining how their communication style impacts relationships and effectiveness in group settings. Students will use personal journals, feedback forms, and self-assessment tools to complete this project.

1.4 Major (Core)

Course Title	Community Work
Course Credits	2
Course Outcome	<p>At the end of the course students shall be able to:</p> <ul style="list-style-type: none"> • Able to understand the concept of community organization and functioning. • Analyses factors contributing to community dynamics and apply in working with communities. • Organize and mobilize community groups for development and social change. • Apply knowledge of human behaviour in the social environment and engage diversity and difference in practice. • Identify as a professional extension worker and conduct herself accordingly.
Module 1 (Credit 1) - Understanding Community Organization	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Identify community organization, its formation, development, and characteristics
Content Outline	<ul style="list-style-type: none"> • Meaning, importance, principles, process, and history of community organization. • Community Organization and Community Development • Types & characteristics of social groups- (family, kinship groups, class-based groups, schools, co-operatives, youth clubs, Mahila Mandals, Panchayats, etc.) • Interests, attitudes, motivations for affiliations, interactions and role in community development.
Module 2 (Credit 1) - Community Dynamics	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Recognise prevailing power structure in a community and role of power in effective interventions for social change. 2. Develop strategies for effective community organisation.
Content Outline	<ul style="list-style-type: none"> • Understanding Power and leadership and their role in Community Organization; Community • Power Structures- Authoritarian, Democratic; Elitist Power and decision-making processes in community; Pluralism as a value and strategy in Community Processes • Rothman's Models of Community Organization- Locality Development, Social Planning, Social Action; strategies, scope, and limitation • Understanding strategies of Gandhi and Ambedkar in organizing communities for action

Assignments and Activities towards Comprehensive Continuous Evaluation (CCE):

Following is an indicative list of activities to be undertaken by the student while engaging in the community work.

1. Take up needs assessment of the community.
2. Assist the organization in their ongoing activities.
3. Undertake programme planning and execution followed by evaluation.

1.5 Major (Elective)

Course Title	Theories Of Behavior And Development
Course Credits	4
Course Outcome	<p>At the end of the course students shall be able to:</p> <ol style="list-style-type: none"> 1. Know different scholars of different behavioural theorists. 2. Compare perspectives and focus of various theorists on humandevelopment and behaviour. 3. Interpret and predict behaviors of all stages of life span. 4. Critically appreciates and analyzes the cross-culturalapplications of theories. 5. Critically evaluate different theories of human development. 6. Compare strengths, shortcomings and implications oftheories of behavior and development. 7. Identify various determinants of development focused bydifferent theories 8. Acquire in depth understanding of the theories and models odevelopment.
Module 1 (Credit 1) - Psychodynamic / Psychoanalytic Theories	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Identify thesignificance and roleof theories in understanding human development. 2. Recognize the idea that early childhoodexperiences affect development of adult. 3. Determine thereasons of deviateddevelopment. 4. Describe and explain an individual'spersonality or Behavior
Content Outline	<ul style="list-style-type: none"> • Significance of theory in understanding behaviour • Roles of theories inunderstanding human behaviour, contributions of Indian Theorists (approaches in theory construction – inductive and deductive) • Sigmund Freud’s classicalPsychodynamic Theory • Erik Erickson’s Psychosocial Theory • Levinson’s Adult DevelopmentTheory
Module 2 (Credit 1) - Cognitive and Language Theories	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Examine the humancognitive process. 2. Create insight about cognitive and language development. 3. Examine internal andexternal factors influencingindividual mental processes to supplement learning.
Content Outline	<ul style="list-style-type: none"> • Theory of cognitive developmentby Jean J. Piaget • Multiple Intelligence Theory byHoward Gardner • Socio-cultural theory by LevVygotsky • Nativist theory by Noam Chomsky • Jerome Bruner’s Theory oflanguage development

Module 3 (Credit 1) - Motivation and Person-Centered Theory	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Understand theories of personality. 2. Gain knowledge of concepts constituting the major theories of personality and how they explain human behavior. 3. Critically appraise research findings in personality psychology.
Content Outline	<ul style="list-style-type: none"> • Maslow's Needs Theory • Henry Murray's Personality • Carl Roger's Person - Centered Theory • Critical analysis of all theories
Module 4 (Credit 1) - Learning Theories	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Describe and distinguish among major learning theories 2. Understand what motivates people to learn, and what circumstances enable or hinder learning. 3. Employ knowledge of learning theories to analyze learning strategies, strengths, and needs.
Content Outline	<ul style="list-style-type: none"> • Classical conditioning by Ivan Pavlov • Operant conditioning by B.F. Skinner • Social cognitive theory of Albert Bandura • Ecological Perspective towards Human development

Assignments and Activities towards Comprehensive Continuous Evaluation (CCE):

1. Individual/ Group Presentations examining theoretical framework and theorist.
2. Assignments associating assessment of one's learning style.
3. Projects (Individual and Group) related to specific theories.

1.6 Minor Stream (RM)

Course Title	Research Methodology
Course Credits	4
Course Outcome	At the end of the course students shall be able to: 1. Develop a scientific approach and know the processes of research 2. Apply competence for selecting methods and tools appropriate for research topics 3. Recognize procedural and methodological aspects of designing research.
Module 1 (Credit 1) - Research Process	
Learning Outcomes	After learning the module, the students will be able to: 1. Summarize the process of research and its relationship to knowledge and science. 2. Identify research process based on actual researches conducted. 3. Recognize process of research problem formulation.
Content Outline	a. Scientific approach to enquiry in comparison to native, common-sense approach b. Knowledge, theory and research c. Role, need and scope of research in the discipline of Home Science Steps in Research Process and Elements of Research a) Identifying interest areas and prioritizing Selection of topic and considerations in selection b) Review of related literature and research c) Variables- types of variables including discrete and continuous variables d) Conceptual definitions and operational definitions e) Concepts, hypotheses and theories e Hypothesis- meaning, attributes of a sound hypothesis, Stating the hypothesis and types of hypothesis Hypothesis testing- null hypothesis, sample distribution, level of significance, critical regions, Type I and Type II errors f) f. Research Design g) Research questions, objectives and assumptions Ethics in Research
Module 2 (Credit 1)- Types of Research	
Learning Outcomes	After learning the module, the students will be able to: 1. Apply different types of research procedures. 2. Design research studies by knowing methods of research.
Content Outline	<ul style="list-style-type: none"> • Basic and Applied research, Qualitative and Quantitative research (brief review of differences) • Historical research • Descriptive research methods – survey, case study, correlational study, content analysis, causal-

	<p>comparative research</p> <ul style="list-style-type: none"> Analytic studies- pre-experimental, experimental research, quasi experimental research Qualitative research, Ethnography Evaluative research- general characteristics, use of qualitative methods in enquiry <p>Scope and importance of research in Home Science.</p>
Module 3 (Credit 1) - Sampling	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> Enlist different techniques of sampling. Compare sampling procedures for specific research problems
Content Outline	<ul style="list-style-type: none"> Rationale, characteristics- meaning, concept of population and sample, and utility Types of sampling and generalizability of results Probability sampling - simple random sample, systematic random sample, stratified random sampling etc - random and non-random samples, random numbers and used.. Non-probability sampling - purposive samples, incidental samples, quota samples, snowball samples General consideration in determination of sample size
Module 4 (Credit 1) - Tools & Techniques for Data Collection	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> Experiment with the different tools of data collection. Recognize relevance of different tools of data collection.
Content Outline	<ul style="list-style-type: none"> Primary and secondary methods of data collection Different types of questionnaires, rating scales, check lists, schedules, attitude scales, inventories, standardized tests, interviews, observation Development of tools, estimation of reliability and validity of tools Procedure for preparation of the tool, administration of tools for data collection Procedure for data collection Planning for data analysis- coding of responses

Assignments/Activities towards Comprehensive Continuous Evaluation (CCE):

- Recognize different Types of variables.
- Hypothesis formations and research questions from Research readings – students identify hypothesis/research questions – Discussion
- Construction of tools for data collection a) types of questions b) Questionnaire c) interview schedule d) observation d) scales
- Differentiate between (a) basic and applied research (Exercise to be based on actual research papers published in accredited journals) (b) qualitative and quantitative research
- Based on Journal contents undertake a critical appraisal of studies/research papers and discuss types of Research with examples.

6. For given topic students to frame and discuss the different possibilities of methods and tools

This is a common paper Across ALL Home Science specializations.

Semester II

2.1 Major (Core)

Course Title	Gender & Development
Course Credits	4
Course Outcome	At the end of the course students shall be able to: <ol style="list-style-type: none"> 1. Be able to recognize gender inequalities and marginalizations. 2. Understand the prevalence of patriarchy and its manifestations in their own life and in society. 3. Recognize relationship between gender and development processes.
Module 1 (Credit 1) - Concepts	
Learning Outcomes	After learning the module, the students will be able to: <ol style="list-style-type: none"> 1. Categories social construction of gender. 2. Examining how gender prevails through varied concepts. 3. Exploring progression of concepts from WAD to GID
Content Outline	<ul style="list-style-type: none"> • Understanding sex, gender, development, division of labor, gender roles, gender justice, equality, equity, rights, stereotypes, social construction of gender, women's studies, male gaze, objectification • Concepts of WAD-WID-GAD-GID, gender analysis matrix, shift from welfare to development and empowerment, rights-based approach • Men-women-third gender, LGBTQA+, Women's movement
Module 2 (Credit 1) - Status of women in society	
Learning Outcomes	After learning the module, the students will be able to: <ol style="list-style-type: none"> 1. Exploring statistics related to status of women in Indian society.
Content Outline	<ul style="list-style-type: none"> • Status – meaning, Situation analysis with regard to demographic, education, employment, political and health (general, occupational and reproductive) of women in India • Theories of feminism, gender inequality, Women's Studies • Beijing Conference & Beijing+25, Issues of feminisation of Poverty, Sanitisation, Fuel-Fodder-Water, Violence/CEDAW, POSH, #Metoo, etc

Module 3 (Credit 1) - Intersectionalities and Marginalization	
Learning Outcomes	After learning the module, the students will be able to, <ol style="list-style-type: none"> 1. Breaking down how intersectionality influences people and their condition. 2. Categorise prevalence of discrimination and abuse faced by people in non- normative gender spectrum. 3. Analyse role of different players in maintaining status quo of gendered society,
Content Outline	<ul style="list-style-type: none"> • Issues of marginalization and interventions therein - religion, caste, • sexual, People with special needs/Disabilities, elderly, children, • Destitute/sex workers/surrogates, terminally ill people, etc. • Interventions for minorities in terms of policies, programmes, Interventions based on assessment of ground conditions. • Role of state, corporate, media and civil society organizations • Issues of marginalization, discrimination, abuse, • inequalities faced by people in different gender spectrum.
Module 4 (Credit 1) - Gender Planning	
Learning Outcomes	After learning the module, the students will be able to: <ol style="list-style-type: none"> 1. Reflecting on varied gender planning frameworks. 2. Recognizing role of gender in development process.
Content Outline	<ul style="list-style-type: none"> • Gender planning, execution and assessment in development projects, programmes and institutions • Gender Analysis Frameworks like Moser-Harvard-Longwe-Social Relations approach, Gender Analysis Matrix • National policy for empowerment of women: policy perspective, • Mainstreaming gender • Perspective in the development process.

Assignments and Activities towards Comprehensive Continuous Evaluation (CCE):

1. Presentation or review based project covering module-2.
2. Analysis of one's own experiences of marginalization
3. Participation through in-class processes towards gender sensitization.
4. Field based work on understanding gender issues in social space.

2.2 Major (Core)

Course Title	Training & Development
Course Credits	4
Course Outcome	At the end of the course students shall be able to: <ol style="list-style-type: none"> 1. Plan and execute training programmes for diverse communities. 2. Understand training as broader function for organizations and its role in development processes of the nation. 3. Apply different theories of learning, motivation and performance while designing training programmes
Module 1 (Credit 1) - Training Process & Needs Assessment	
Learning Outcomes	After learning the module, the students will be able to: <ol style="list-style-type: none"> 1. Examine role of training in human resource development. 2. Illustrate various stages of training process. 3. Devising training programmers by 4. Undertaking needs assessment.
Content Outline	<ul style="list-style-type: none"> • Systematic Approach to Training: concept of training, role, need and importance of Training. Differences in learning, training, development • Phases of training process: Needs Assessment-Training-Development-Evaluation. Expenditure and investment in training by an organisation and society. • Stages & Phases of T&D: Assessment, Motivation, Design, Delivery, and Evaluation Stages, Pre-During- Post Training Phases, methods, tools and techniques for effective training; participatory training tools • Needs Assessment and Analysis: Organizational- Individual-Operational training needs, Stakeholders in Need Assessment, Types of Training Needs Analysis- Contextual, Competency, User, Task/Work, Content, Sustainability, Cost- benefit analysis. • Designing and evaluation of Training Programs for different stakeholders (Grassroots functionaries, managers, policy makers)
Module 2 (Credit 1) - Programme Planning & Evaluation	
Learning Outcomes	After learning the module, the students will be able to: <ol style="list-style-type: none"> 1. Preparing programme planning, design and evaluation for specific community. 2. Present monitoring and evaluation plan for a programme planned for specific group. 3. Recognising resources and utilisation of resources for programme planning and execution.

<p>Content Outline</p>	<ul style="list-style-type: none"> • Programme Design in Extension - Meaning and principles of programme building process, Situation analysis, needs and objectives <ul style="list-style-type: none"> - Types of needs, methods of identifying needs, Objectives-types, levels and characteristics, steps involved programmes building process, • Programme development cycle, planning models and framework, planning and developing teaching methods, precautions in programme building. • Utilisation of local resources- meaning and types of Resources, identification and appraisal of resources, resource mapping and plan of work. • Programme Implementation- Strategies and Approaches, aspects of execution, factors responsible for the successful conduct of a programme, role of officials and non-officials in programme implementation, linkages with other agencies, problems in implementation. • Meaning and definition of Monitoring and Evaluation, Types of Evaluation (a) Informal and Formal b) Formative and Summative c) On-going and Ex-Post facto evaluation. Approaches to monitoring, tools for monitoring, principles, indicators, Steps, criteria for evaluation, Advantages of evaluation, Difference between monitoring and evaluation, Challenges and issues in monitoring and evaluation. Ethical issues in monitoring and evaluation. • Documentation and follow up - Need for reporting and recording, procedure for recording, Records and registers to be maintained. • Meaning and need for the follow up; methods- correspondence, spot visit, meetings, FGD, PRA, etc.
<p>Module 3 (Credit 1) - Capacity Building</p>	
<p>Learning Outcomes</p>	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Formulate training module based on understanding about capacity building of diverse needs for different groups. 2. Constructing curriculum for specific requirements. 3. Analysing training eco system and recognising role of trainer in any training programme.

Content Outline	<ul style="list-style-type: none"> • Concepts of capacity building, competence and Human Resource Development/Management, process of competency mapping, Job analysis and job description, Policies of HRM • Curriculum planning - meaning, definition and principles of curriculum. Preparation of need-based curriculum and development of learning materials for different kinds of lifelong learning programmes. Teaching literacy through Improved Pace and Content of Learning (IPCL), Designing modules for specific groups • Training Methods & Role of Trainers - Qualities of a good Trainers, Internal Trainer Vs External Trainer, Training method and trainee characteristics, training evaluation Models- Kirkpatrick Four-level approach for training impact evaluation and other models, Role of Incentives and Motivation in training, Attitudinal and Behaviour change training, Retention and Recall in training. Creative problem solving techniques; Stress management practices; Total Quality Management (TQM);
Module 4 (Credit 1) - Organizations	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Categorise agencies involved in training and development activities. 2. Recognise how learning organisations and MIS operates in extension organisations.
Content Outline	<ul style="list-style-type: none"> • Agencies involved in training and development- NGOs, GOs and Corporate • Concept of learning organization to improve extension services at various levels; • Time management practices; Development of Management Information System for extension organization at various levels.

Assignments and Activities towards Comprehensive Continuous Evaluation (CCE):

1. Designing of training programme for community.
2. Attending and analyzing a training programme.
3. Visiting organizations involved in training and development activities.
4. Examining training ecosystems of organizations working in community development

2.3 Major (Core)

Course Title	Extension Systems
Course Credits	4
Course Outcome	At the end of the course students shall be able to: <ol style="list-style-type: none"> 1. Recognise the pre-existing extension systems. 2. Design extension system for a given context.
Module 1 (Credit 1) - Principles and Applications of Extension Work	
Learning Outcomes	After learning the module the students will be able to: <ol style="list-style-type: none"> 1. Categorise diverse applications of extension. 2. Recognise difference between social work and extension work.
Content Outline	<ul style="list-style-type: none"> • Extension: meaning, philosophy, objectives, principles, functions of extension, trends • Extension education: meaning, process and principles of learning in extension • Agriculture, Home Science, Dairy, Fisheries, etc. • Difference between extension work and social work
Module 2 (Credit 1) - Extension models and approaches	
Learning Outcomes	After learning the module, the students will be able to: <ol style="list-style-type: none"> 1. Approaches to extension and their merits and demerits. 2. Elaborate consequences of privatization of extension systems.
Content Outline	Models: Technology-innovation transfer, commodity specialized training and visit, Approaches: social education, indigenization Social action, conscientization, empowerment, participation, participator farming systems-development, cost sharing, integrated area, cluster and target approach Privatization of Extension, e-extension Corporate Social Responsibility
Module 3 (Credit 1) - National extension systems	
Learning Outcomes	After learning the module, the students will be able to: <ul style="list-style-type: none"> • Trace evolution of extension efforts. • Classifying different agencies involved in extension work. Dissect role of digital communication in extension efforts.
Content Outline	<ul style="list-style-type: none"> • Early extension efforts, community development programmes • ICAR extension system, extension systems of • ministries, various types of universities, KVK, TTCs. T & V, Development work by NGOs/Non-Profits/GOs/Corporates, Public

	PrivatePartnerships <ul style="list-style-type: none"> Digital communication strategies for extension work- Inclusive, accessible and universal design in digital communication
Module 4 (Credit 1) - Agencies and Efforts in Community Development	
Learning Outcomes	After learning the module, the students will be able to: <ol style="list-style-type: none"> Recognise contribution of various agencies in community work. Critique scope and strength of extension efforts of different agencies.
Content Outline	<ul style="list-style-type: none"> Introduction to community work Working with community, society and organization, Volunteerism Institutions like District Rural Development Agency (DRDA), Central Social Welfare Board (CSWB), State Social Welfare Board (SSWB), National level agencies like Council for Advancement of Peoples Action and Rural Technology (CAPART), Khadi and Village Industries Corporation (KVIC), Agriculture Technology Management Agency (ATMA), National Bank for Agriculture and Rural Development (NABARD) Local level voluntary agencies; People's organizations at grass roots like Self Help Groups (SHG) etc.

Assignments and Activities towards Comprehensive Continuous Evaluation (CCE):

1. Visit to extension work organizations.
2. Presentation of Case study organization working in community development.
3. Meeting individuals engaged in different types of extension effort.
4. Library based review work on history of extension effort in India and abroad.
5. Interviewing extension professionals and understanding their challenges.

11. Singh Ajit K (2012) Working with communities and societies, Centrum Press, New Delhi.

2.4 Major (Core)

Course Title	Community Work
Course Credits	2
Course Outcome	At the end of the course students shall be able to: 1. Apply theoretical knowledge in practical situations. 2. Organize and mobilize community groups for development and apply knowledge of human behaviour in the social environment and engage diversity and difference in practice. 3. Plan and execute community development activities. 4. Identify as a professional extension worker and conduct one-self accordingly.
Module 1 (Credit 1) - Leadership for Development	
Learning Outcomes	After learning the module the students will be able to: 1. While working in a community examine role of leadership in the community. 2. Recognise how communities are structured across spaces.
Content Outline	<ul style="list-style-type: none"> Leadership in communities; Role & importance of leadership in community organization; Characteristics of a successful community leader; needs, qualities identification & training Community leaders as Facilitators of Change; leadership training to sustain community change processes
Module 2 (Credit 1) - Organizing Communities for Change	
Learning Outcomes	After learning the module, the students will be able to: 1. Recognise factors that influence social change. 2. Examining role of organisation in development work
Content Outline	<ul style="list-style-type: none"> Factors contributing to change- religion, socio-political ideologies, culture, imperialism, mass media, communication & globalization; their impact on community development. Comparing historical & contemporary situations. Organizations involved in Development- role, interactions & importance (government, corporate, non-government organizations, and private public partnerships): their present role, future potential and inter- sectorial synergy.

Assignments and Activities towards Comprehensive Continuous Evaluation (CCE):

- At the end of the semester students will submit a report of the work carried out by them. During the course of work, student will be supported by a faculty member

as well as people from the organization. Unlike internship, the student will design, revise, re-plan and review activities on ongoing basis. At the end of the semester, she will present work done by her/them and viva voce will be conducted.

2.5 Major (Elective)

Course Title	Media Production
Course Credits	4
Course Outcome	At the end of the course students shall be able to: <ol style="list-style-type: none"> 1. Understand different media outputs and be able to recognize elements of media production. 2. Identify media products and its audiences in order to achieve desired extension goals. 3. Create audience specific media content. 4. Execute communication campaign in collaboration with other organizations
Module 1 (Credit 1) - Media Concepts and Communication	
Learning Outcomes	After learning the module the students will be able to: <ol style="list-style-type: none"> 1. Differentiate varied concepts associated with media communication. 2. Examine role of communication process on receivers.
Content Outline	<ul style="list-style-type: none"> • Medium, media, audio, visual, audio-visual, Multimedia • Interactivity, Participation, ICT, Digital technologies, Social Media Audiences, Consumers, Community, Culture
Module 2 (Credit 1) - Audio-Visual and Digital Communication	
Learning Outcomes	After learning the module, the students will be able to: <ol style="list-style-type: none"> 1. Apply principles of communication for audio-visual and audio visual, digital communication. 2. Creating communication of varied type for specific audiences.
Content Outline	<ul style="list-style-type: none"> • Audio communication Spoken Word-Instrumental Sounds-Music-Silence-Sound effects Songs, Slogan, proverbs, folk cultures Producing audio programme- formats, process, objectives • Visual Communication Group Media-Posters, Charts, Graphs, Infographics Photography - composition, rule of third, colours, space Moving images- camera movements, movements within and outside frame • Audio Visual Communication Principles of audio visual amalgamation • Screen Language- camera, character, composition, colours • Role of Editing- transitions, pace and rhythm, post production processes • Digital Media Producing media content for digital space- interactivity, convergence and platform frameworks in digital media content creation

Module 3 (Credit 1) - Concepts in Writing	
Learning Outcomes	<p>After learning the module, the students will be able to:</p> <ol style="list-style-type: none"> 1. Practice role of writing in human communication. 2. Categorizing appeals and forms of writing. 3. Recognize elements of writing and using them effectively.
Content Outline	<p>Module Contents:</p> <ul style="list-style-type: none"> • Narrative, Plot, Structure, Elements of Storytelling Characters- demographic/physiographic/psychographic/sociographic, Locations, situations, Creative-technical-popular- scientific writing • Oral versus written word, Characteristics of written communication, Role of Language, Designing messages with audience participation <p>Written Communication</p> <ul style="list-style-type: none"> • Journalistic and Advertising writing- News writing skills, Features versus Reports, Interviewing for Journalistic writing, Components of Print Advertising, writing for persuasive communication including advertising • New media and characteristics of new media, Digital Media forms and Presentations, Difference of traditional storytelling versus digital story telling • Role of Communicator, Language, Resources, Community, Environment in • Message creation. Role of Audiences in message construction and reception • Appeals- Fear, Rational, Humour, Journalistic, Spiritual, satire etc.
Module 4 (Credit 1) - Project	
Learning Outcomes	<p>After learning the module, the students will be able to:</p>
Content Outline	<ul style="list-style-type: none"> • Student/s executes a designing/implementing communication strategies for their Field work Organization or independent of it covering Media Production syllabi. This Project will carry 50 marks of internal assessment. Remaining marks can be for the participation, process and peer evaluation.

Assignments and Activities towards Comprehensive Continuous Evaluation (CCE):

1. Students design communication messages for PSA-Public Service Advertisements.
2. Short reels can be made giving social or commercial messages.
3. Writing report of the ongoing activity.
4. Audio programme, jingle, radio play, podcast can be created.

2.6 OJT

Course Title	INTERNSHIP
Course Credits	4
Course Outcome	At the end of the course students shall be able to: <ol style="list-style-type: none">1. Recognize concepts of a professional work environment and become part of one.2. Conduct one in line with deliverable outcomes for given organization.3. Apply skills gained in the classroom in work life spaces.

Assignments and Activities towards Comprehensive Continuous Evaluation (CCE):

- The report of the internship along with the supervisor's evaluation will have to be submitted to the Head of the Department within fifteen days of completion of internship before or after the theory examination depending upon the local conditions.
