Mumbai - 400 049*

SNDT Women's University

Shrimati Nathibai Damodar Thackersey (SNDT) Women's University is one of the pioneers in the Home Science education in the country. The university that marked its inception in 1916, shifted its headquarters to Bombay in 1936 and received statutory recognition in 1951. Being first women's university in South-East Asia, SNDTWU completed 101 glorious years in 2017.

It was founded by Bharat Ratna Maharshi Dr. Dhondo Keshav Karve in 1916, in Pune, to support the cause of women's empowerment through higher education. The university operates from 3 campuses; Churchgate (headquarters), Juhu and Pune. The university offers 250 programmes ranging from Undergraduate to Ph.D. as well as Diploma and Postgraduate Diploma programmes through 15 Faculties.

About Home Science

Home Science education equip students with broad range of skills and careers in contrast to common perception that it is confined to cooking, stitching and child rearing etc. There is need to change this perception of Home Science among common people. One option may be Change nomenclature of Home Science by keeping in mind that nomenclature should be easily recognizable by prospective students, employers and other stakeholders. It should be unambiguous in terms of level and professional orientation.

Home Science is not only a science but it is also an art which include conceptual knowledge and theories from art, Science and humanities. Home Science had the context of extending innovations of other four branches of knowledge within Home Science- food science and nutrition, textiles and clothing, child development and family resource management to families, communities and society at large through extension and communication.

About Conference

World Bank 2014 report titled "Risks and Opportunities: Managing risk for development" devotes its third chapter on household. The report remarks "Households are the first line of support to confront risk and pursue opportunity". Home Science as a discipline is undergoing transformation.

Two-days conference is being planned on the green campus of SNDTWU in suburban Mumbai to pay attention to the status of home science education in India. The objective of the conference is to bring together professionals, teachers, researchers and students to take a look at role and relevance of home science in its diverse application areas and understand the vision for future of the discipline.

The conference will include the plenary, panel discussions and paper presentations.

Call for Papers

Research and conceptual papers are invited from teachers, students, and research scholars.

There are four broad theme areas under which Home Science Education is being examined.

- A:** Uniformity of Nomenclature of Home Science
- B:** Assessment and Quality issues in Curriculum
- C:** Teachers Quality and Qualifications
- D:** Vocationalization and Professionalization

Scholars are requested to submit full papers (5000 words)/abstracts (500 words) in one of the theme areas by September 5, 2017 through an Email:

<pghomescience2017@gmail.com>
