ABOUT S.N.D.T WOMEN'S UNIVERSITY

Shreemati Nathibai Damodar Thakersey Women's University is the first women's university in South-East Asia. The University was founded by Maharshi Dr. Dhondo Keshav Karve in 1916 for the noble cause of women's education. This university completed 101 glorious years in 2017. The university operates from three Campuses: Churchgate (headquarters), Juhu & Pune.

ABOUT DEPARTMENT OF HUMAN DEVELOPMENT

The field of human development is a scientific study of all the stages of human development. It professionally looks at concerns and problems of each developmental domain such as physical, cognitive, emotional, language and psycho-social. It is the systematic study of enhancing and scaffolding the integral development of individuals. It covers the peripheral issues of development such as family, work space, school and other social institutions. Research and extension is the main feature of this department.

Courses offered by the department:

- P.G Diploma in Early Childhood Education.
- Masters in Human Development.
- Masters in Early Childhood Education.
- Ph.D. in Human Development & Early Childhood Education.

SESSION THEMES

Interplay of preschool methodologies

It is mandatory for the effective preschools to respect the pedagogies and assure its creative interplay suiting Indian context.

Innovation in story telling

A set of skills of good story telling in teacher expands horizons of new learning, sparks imagination and stimulates curiosity in children.

Preschool teacher skill building

Along with the scientific knowledge and training, skills to impart and ignite child's imagination are paramount features in a preschool setup.

Innovative technology for preschools

Openness to incorporate technology and its appropriate use is expected and thus it is essential to be professionally efficient in technology.

Ethics in preschools

Ethical practices are important for parents, caretakers and teachers in specific. Sensitization in preschool ethics is mandatory.

Assessment and evaluation of preschoolers

To assure the speed and the pace of the development of the individual child, it is necessary that the teacher genuinely assesses and scientifically evaluates the preschoolers which help to assure gradual development.

Empirical Researches in the field of Early Childhood Education

Recent researches in ECE and its application is essential, the new research evidences help to update the knowledge and develop the skills.

Music and movement for preschoolers

The recreative value of teaching at the preschools is required to create an engaging and inclusive environment.
