Dear Sir,

PFA a format of MOU with Loreto College, Kolkata, (LCK) for your consideration, perusal and advice.

Loreto college, Kolkata is 110 years old womens college in Kolkata and one of the first in the country. It is ranked 33 in NIRF ranking and is a progressive womens institution and consideration. A collage ration between the SNDTWU and LCK will benifit both indtitutions. It involves no financial implication for both parties.

Request you to kindly give your advice and consent for the same.

Dear Manisha,

The MOU draft enclosed in the context of Loreto College is in order.

Just one curiosity is to what would college affiliation bring for our University whereas other way round may be provide them mileage.

However, I personally see no harm in going ahead with this.

Good wishes,

Mira

Dear Mira,

You have a point. But Loreto college like us is a womens institution older than us. An agreement with them would help in bringing together women's institutions in organising events. It would make student exchange far easier and practicable. The goodwill that both institutions enjoys may help. Loreto has completed 4 cycles of NAAC and has been given holiday of 2 years. Above all Loreto has strong social science and language department with some of the best faculty. This would also help in research across regions. Some student progression may also be possible. As you rightly point out, it would benefit them, but we too will gain in the process.

I too see no objection, but would rather like the MoU to be with the mother University to which Loreto is affiliated. Even if it is autonomous.....think about that.

Then specific collaborations can happen across similar departments across both institutions.

### Memorandum of Understanding

This Memorandum of Understanding between Be.artsy and SNTD University ('SNTD') formalises the discussions between SNTD's Mr Magre (Vice Chancellor) and Be.artsy's Ms Shikha Mittal (Founder) to host a women's financial literacy program for over 50,000 women students of 187 colleges of SNTD university spread over Maharashtra and Gujarat.

SNTD Women's University is the first Women's University in India as well as in South-East Asia. The University Headquarters is in Churchgate Campus, Mumbai and the other two campuses of this University are at Juhu, Mumbai and Karve Road, Pune.

Employability skills include financial literacy, a topic that is not adequately addressed in most courses, and Be.artsy would be happy to collaborate with SNTD University to enable as many students to gain this useful skill as possible.

Be.artsy is India's premier awareness enterprise, and our experience in financial literacy and inclusion started with a financial inclusion program for Itzcash (now Ebix) in 2011, which ran for several years. The target was to introduce formal banking channels to low-income migrants.

Since 2016, Be.artsy has worked with National Stock Exchange and Franklin Templeton for the proprietary financial literacy campaign "Kamai ki Mehnat", covering employees in 154 companies and students in 95 colleges. Be.artsy's "Be Your Own Lakshmi" campaign is well received among women. We have covered over 1,35,000 people using 780 sessions to date, in five languages in 42 cities, towns and villages.

**Proposal:** Be.artsy will conduct up to 150 online introductory sessions of its proprietary "Be Your Own Lakshmi" program on Financial Literacy for the women students of SNTD University. The program would start in October 2020, and is expected to be completed around March 2021. Each session can accommodate up to 500 participants. Sessions will be run only if there are a minimum of 100 participants signed up. The sessions will be in Hindi and English, and shall be deemed to be delivered out of New Delhi. The program is supported by the National Stock Exchange, and SNTD will not be charged for the same. However, costs of any arrangements at SNTD necessary for the effective conduct of the program shall be borne by SNTD. SNTD is not permitted to charge the students for the "Be Your Own Lakshmi" sessions.

SNDT and TISS are now proposing to enter into a Memorandum of Understanding (MoU) for providing academic and operational inputs in delivering the programs as set forth in this MoU and each program term sheet related hereto.

**NOW THEREFORE, IN CONSIDERATION OF THE FOREGOING PREMISES AND THE MUTUAL COVENANTS AND AGREEMENTS CONTAINED HEREIN, SNDT AND TISS AGREE AS FOLLOWS:**

**1.0 Background and Rationale**

1. The poor quality of support to teacher development, including weak initial teacher education and subsequent professional development programmes leaving teachers with weak content and pedagogical knowledge and classroom skills (including instructional practices)
2. Inadequate teaching methods and learning materials, particularly in local languages and accessible to learners, including in terms of being aligned with their current level of understanding.
3. Lack of robust systems for recruiting, managing and engaging teachers, in terms of attracting and retaining the most qualified individuals to the teaching profession,

teacher deployment to underserved and difficult areas of the country, reducing unauthorized teacher absences and maximizing instructional time, and engaging teachers in policy dialogue and reform.

This project seeks to directly address the first two concerns and the third more indirectly through building processes for long-term systemic dialogues and networking. This project will pilot and research an innovation for professional development, the Connected Learning Initiative (CLIX), developed and implemented as an innovation to address quality of secondary education in India ([www.clix.tiss.edu](http://www.clix.tiss.edu)), taken to new country contexts of Bhutan, Nigeria, and Tanzania through a South-South collaboration of higher education institutions engaged in Teacher Education. The Connected Learning Initiative for Teacher Education in Mathematics and Sciences (CLIX4TEMS) will introduce and integrate an OER based approach to developing knowledge of content, pedagogy and inclusion for secondary school Science and Mathematics teaching in teacher professional development.

## **2.0 Project Goals:**

- Faculty of teacher education will have knowledge and capacities to curate and adapt OERs using Universal Design Principles and to foster PCK.
- Faculty of Education would be enabled to integrate UDL in the TE curriculum and also to operate an OER design lab and a repository.
- TE Faculty will have knowledge and capacities to form and nurture mobile- based communities of practice (CoP) and will integrate the UDL principles into CoPs.

## **3.0 Project Duration & Extension**

**Organized by**

**SNDT Women's University in collaboration with Press Information Bureau**

Women hold more than half of the sky and Covid-19 clearly showed their role and relevance in family-community-nation and world. International Women's Day formally was recognized in 1977 by United Nations, the theme for 2021 is "Women in Leadership: Achieving EQUAL future in a Covid-19 World".

While 'gender' is fairly clearly defined, the 'work' has lost its location and rewards mainly for women and other marginalized communities. UN reports an analysis of COVID-19 task teams from 87 countries found only 3.3 per cent of them had gender parity. Unpaid care work has become centre of discussion due to 'Covid times' considering private and public boundaries has merged and personal had always been political!

Research Centre for Women's Studies and University Department of Extension & Communication, SNDT Women's University brings together varied perspectives to examine gender and work in this changing times of human history. Being an online event, it is a global event addressing Indian contexts.
