

## **WALK IN INTERVIEW FOR SOCIAL RESEARCHERS**

SNDT Women's University is implementing a research project for National Commission for Women, New Delhi titled "Prevalence, Nature and Awareness of Cyber Violence for Young Women and Web 2.0: A Study from Maharashtra" during 2023.

As a part of this project, data collection of 2500 undergraduate and postgraduate women students from two rural and two urban districts of Maharashtra is warranted.

Project researchers are looking for two types of research assistance:

One, six months full-time temporary contractual appointment mainly for coordinating, conducting interviews of government officials, cyber security officers and women having filed cases for facing cyber violence.

Two, rural and urban travel within Maharashtra for data collection using questionnaire. The person will be required to travel to identified areas of rural and urban Maharashtra and will be reimbursed actual travel as per university norms besides based on number of completed questionnaires.

For both the above tasks, postgraduate women from the subject disciplines of computer science, media communication, women's studies, social sciences are preferred.

Anyone interested is requested to fill out the Google Form on Link: <https://forms.gle/Yq9AZQzNUJXia5JPA> before 25 February, 2023.

You will be informed about the date, time and place of interview if you are shortlisted for the work. The work will start by March 2023.

Thank you for your interest,

Prof Ruby Ojha, Principal Investigator  
Prof Mira K Desai, Co-Investigator
